### **RULING ON ENTITLEMENT<sup>1</sup>**

On January 7, 2021, Joanne Carole Stange filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration after receiving an influenza (flu) vaccination on December 18, 2019. Petition at 1. Petitioner further alleges that the vaccination was administered within the United States, the adverse effects of her vaccine-related injuries have lasted for longer than six months, and that she has not filed a civil action or received compensation in the form of an award or civil settlement for her vaccine-related injuries. Petition at 1, 5. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 23, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent concluded that Petitioner's claim meets the Table criteria for SIRVA. *Id.* at 4. Respondent further agrees that "the case was timely filed, that the vaccine was received in the United States, and that [P]etitioner satisfied the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration." *Id.*

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
